

Firstmate®

External Strobe Light Instructions

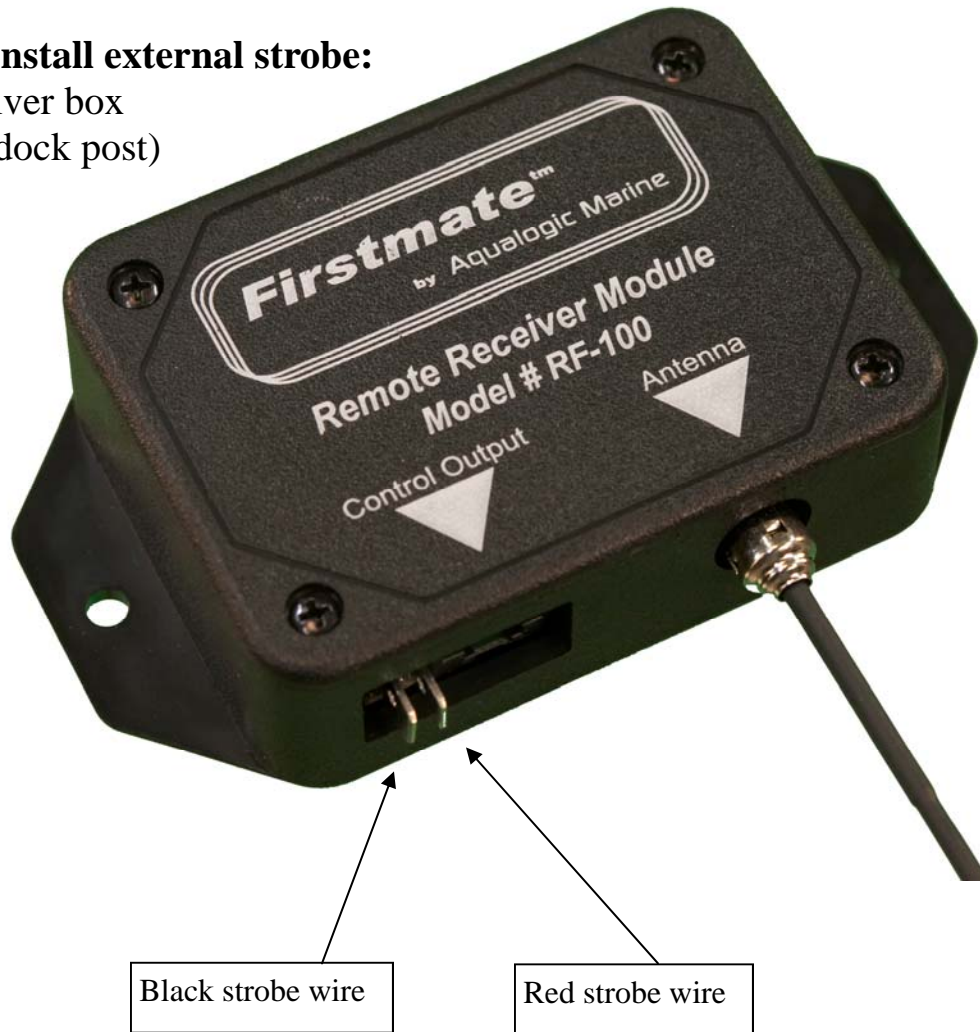

Will need:

One (1) Firstmate® blue strobe indicator

Plastic zip line tie OR optional strobe mounting bracket

Instructions to install external strobe:

1. Remote Receiver box
(mounted on dock post)

Congratulations! You have added your remote strobe light!

NOTE: If you wish to have the strobe mounted at the end of the dock, you will need the 50 foot cable in place of the 14 foot cable at the Control Output.

**** Always mount the Remote Receiver with the antenna pointing down****
